EXECUTIVE SUMMARY

An accounting undergraduate and national leadership fellow seeking to serve the Jawatankuasa Rumah Kediaman Siswa (JKRKS) of Universiti Malaya, bringing direct and hands on experience in student residential administration. As Deputy Person-In-Charge of Rumah Kediaman Siswa (RKS) 5, I supervise cleanliness and order across shared spaces, manage facility damage complaints, keep resident payment records accurate and transparent, and support housemates who need help, all while keeping daily operations running in line with university guidelines. This is complemented by treasury and governance mandates across a 2,500 member regional alumni network, a national leadership accelerator and multiple student organisations, where my consistent contribution has been the same: building financial systems and governance structures that are transparent, auditable and durable. My commitment to JKRKS is to strengthen an orderly, accountable residential administration that puts resident welfare first.
